

## Don't Believe the Myths

*But what if I'm...*

*Too old?*

There are no age limits – your donation will still make a difference.

*Previously sick?*

It doesn't matter. Past illness may not affect your ability to be a donor.

*Afraid I won't be cared for if the doctor knows I am a Registered Donor?*

The doctor responsible for your care is not at all involved with the donation decision or process.

## Know the Facts About Donation

*Did you know...?*

You must be 18 years or older to register.

Donation does not interfere with final burial wishes or funeral arrangements.

There is no financial cost to the donor or their family to register or donate.

All major religions support donation.

Organ, eye, and tissue donation saves lives!

## Resources
